Developers: Roberto Ferrari, Mak Fazlic.

# .TEX to .PDF?

## Local Execution

```
final String command = "pdflatex output.tex";
try { // try create output.pdf
    final Process process = Runtime.getRuntime().exec(command);
    final BufferedReader reader = new BufferedReader(
        new InputStreamReader(process.getInputStream()));
    String line;
    line = reader.readLine();
    while (line != null) {
        line = reader.readLine();
    }
    reader.close();
    output = "Successfully compiled to: output.pdf";
} catch (IOException ex) {
    ex.printStackTrace();
}
```

## Online APIs

Aspose.Pdf for Java 17.1.0

GroupDocs.Conversion

## Local Imports
